

**HIGHER EDUCATION LEGAL CONFERENCE**

**WEDNESDAY, MARCH 22, 2017**

**8:00 AM - 5:30 PM**

**COURTYARD BOSTON DOWNTOWN  
275 TREMONT ST | BOSTON, MA**

# ABOUT THE CONFERENCE

Hear from leaders in higher education about the primary legal issues they've been confronted with and the problem-solving approaches they've enacted to facilitate institutional development and promote positive campus affairs.

The conference is geared towards college and university legal practitioners who advise higher education leadership directly and professionals who wish to participate in discussions around the emerging legal issues within the higher ed space.

Following introductions and opening presentation, the conference will break out into two high-level tracks with a series of subject-focused presentations within each track. One track will cover institutional and business development topics, while the other track will address legal issues and policy development for campus affairs. The conference concludes with a networking reception.
